Our topic and speaker for the meeting will be:

### **Topic**

### **Lead & Work Across Generations: Proven Strategies to Connect and Engage a Multi-Generational Workforce**

52% of workers say they are least likely to get along with someone from another generation. And 62% of Generation Z (the generation after Millennials) anticipate challenges working with Baby Boomers and Generation X.

A multigenerational workforce can create stifling challenges or bottom-line-boosting advantages. Ryan will share his expert insights into how leaders and organizations can harness the advantages of a generationally diverse team.

### **ATTENDEES GAIN:**

- Insights into the generational gap and why it exists
- Perspectives of each generation's varying views of work, leadership, communication, and technology

- Strategies that are proven and actionable to close the generational gap at work
- Best-in-class examples of organizations successfully closing the generational gap
- Ability to work, communicate, and lead across generations

Ryan's blog, podcast, and Inc Magazine column inspire and equip thousands of people every week. Ryan's fresh and forward-thinking approach to generations have made him one of the most highly sought after generational and future of work keynote speakers.

He is also co-founder of SyncLX.com, a learning and development company redefining how to learn in a digital world.

When he is not speaking and writing, you can find him sampling craft beers from around the world or spending quality time with his, 3 children and yellow labrador in their home in Atlanta, GA.

Unlike our meetings at Maggiano's with lots of good Italian food, you will need to bring your own lunch to the meeting. There is no fee for attending the meeting.

As a note to our members who are Professional Engineers, attendance at our monthly meeting presentations can be counted towards your continuing education requirements. You will likely need to use this documentation and potentially the presentation materials (to be located on the Club's website at [www.atlantapipeliners.com](http://www.atlantapipeliners.com)).
